[Abstract:] Wants to know how to…

My Husband was a Rail Road Engineer for twenty five years. He was in a wreck and his watch was broken. I have it as a keepsake. My children need an education. Can I get more good from the keepsake if you melt the gold and silver and sell the other valuable parts of it and keep your pay from the gold. If so please give me your address and please tell me how to send the watch to your address.
